### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POE storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

**SUMMARY**

**25X1A** Leningrad Munitions Loading and Storage KR Znamets [REDACTED] at 60-01-40N 030-28-40E and the Leningrad Ammunition Storage KR Znamets [REDACTED] at 60-01-10N 030-29-42E are located within a large double-secured area just east of Murino. The combined facility, surrounded by a fire-break, extends southward 4.6 kilometers (km). Its southernmost point is 13 km from the center of Leningrad.

The installations occupy approximately 1,700 wooded acres and are divided into 2 well defined areas: a rail-served storage area and an adjacent support area. The storage area contains 39 rail-served probable ammunition storage buildings, 1 probable security

structure, and 7 miscellaneous support buildings. The support area, bounded by the storage area and a stream, contains 5 possible barracks, 3 possible administration buildings, 6 storage buildings, 2 security structures, and 24 miscellaneous support buildings. Security is provided by 6 guard sheds and 28 unidentified towers located within the 2 fences surrounding the ammunition storage facility. Within the support area there is a separately secured section containing a tall tower and an unidentified single-story building.

[REDACTED] KEYHOLE missions of interpretable photography covered the area between [REDACTED] [REDACTED] No significant change was observed.

**25X1D**

**DESCRIPTION OF INSTALLATION**

**Railroad Service**

The installations are rail served with 3 closed loops and 2 spurs within the storage area.

**Road Service**

The facilities are served by secondary roads.

**Aircraft Landing Strips**

There are 5 airfields within 18 km of the installation.

**Administrative and Troop Housing Area**

Area D contains 3 possible single-story barracks, 2 possible multistory barracks, 3 possible multistory administration buildings, 2 security structures located at the north entrance, and 24 miscellaneous support buildings and sheds.

**General Storage Areas**

Area E1 contains 4 possible storage buildings.

Area E2 is an open storage area with a small shed.

Area E3 is an open storage area.

**Ammunition Storage Areas**

Area F1 contains 14 unrevetted probable ammunition storage buildings, 2 ammunition storage buildings revetted on 1 side, and 1 ammunition storage building revetted on 2 sides.

Area F2 contains 5 large ammunition storage buildings revetted on 3 sides, 3 small ammunition storage buildings revetted on 3 sides, and 1 unrevetted ammunition storage building.

Area F3 contains 4 unrevetted ammunition storage buildings, 1 ammunition storage build-
